The Impression Prevails at Washington That She Will Be Considered No Prize by the Prize Courts—All the United States Consuls, So Far as Known, Have Made Their Way Out of Spain Safely. Army Reorganization Bill Became a Law—Officers Detailed to Muster State Volunteers Into the Regular Army. West Point Graduating Class Assigned. Captain Mahan Called Home—Rear Admiral Erben Placed In Charge of the Mosquito Fleet—Commander Elmer Dead—Retired Officers Called.

WASHINGTON, April 27.—Conditions in Washington are rapidly settling down to those of actual war. Notices have come to the state department from the four quarters of the globe showing that the nations, as a rule, are prepared to assume an attitude of strict neutrality as between the United States and Spain in the present struggle. In most cases they were in answer to the identical note sent out by the state department to all United States embassies and legations, instructing them to inform the governments to which they were accredited that war has existed since April 21. Great Britain always has taken an advance stand in the principles of neutrality, so that it was with great interest that the news was received here of the terms of the neutrality proclamation issued in London.

On the whole, the officials are disposed to take the view that a strict adherence by Great Britain to these rules will be rather more advantageous to the United States than to Spain, particularly as we are now operating in the naval sense close to our own base of supplies, and in all probability soon will cut Spain off from the two bases that she now has in the neighborhood of Cuba.

The president issued a proclamation laying down rules as to the seizure of prizes, and the result, it is believed, will be the release of some of the ships already captured, though it will be for the prize courts to determine in each case whether the conditions under which the ship was captured are such as to warrant release. The impression prevails that the Buena Ventura, the first on the list of prizes, will be declared no prize.

The case of the Panama, whose seizure was reported, is more complicated owing to the fact that, while otherwise exempt, the ship was reported to have contained supplies for the Spanish army in Cuba which are contraband. However, it may be said that, while the settlement of these questions will be left to the courts, the administration believes the greatest liberality should be shown in the application of the laws where a vessel is not contraband or attempting to run the blockade. That is shown in the liberal terms of the proclamation itself by which the prize courts must be guided. It is noted also that the administration has not been deterred by any criticism in congress from again formally pledging itself to the nations of the world to refrain from privateering and abide by the declaration of Paris of 1856.

So far as is known all the United States consuls made their way safely out of Spain. Consul Fay at Dania has reported to the department from Lisbon, Consul Bowen at Barcelona from Paris and Consul Carroll at Cadiz and Consul Bartelan at Malaga from Gibraltar. The department has assured itself that the others are safe.

The army reorganization bill became a law and the war department have begun to devise the best means of carrying out the purposes of the act, which will result in an increase of the regular army to more than 60,000.

In the war department preparations went on with ceaseless energy for the volunteer army. All the officers were detailed who are to be sent to the various states and territories to muster the guardsmen into the service of the United States.

The plans for the full organization of the army were also perfected. To provide officers for the regular army and volunteers Secretary Alger ordered the assignment to duty of all the cadets at the West Point military academy who would in the ordinary course of events have graduated in June.

Editor of the Evening News at the navy department was one directing Captain A. P. Mahan, the author and world re-

nowned authority on naval tactics, to report for duty at the navy department. Captain Mahan is a retired officer, and will be assigned to position on the strategy board. Probably he will replace Admiral Walker, for whom the president and Secretary Long cherish the highest regard on account of his professional ability, and who is to be assigned to duty of the highest importance in the immediate future.

It appears that the assignment of Rear Admiral H. Erben, retired, to relieve Commander Elmer, in charge of the Mosquito fleet, was caused by the ill-health of Commander Elmer. More than a dozen retired officers were called into the service by Secretary Long. Commander Elmer has since died.

Spanish vessels, by the president's proclamation, have been given until May 21 to leave United States ports.

#### The Steamer Paris Sighted.

QUEENSTOWN, April 27.—The steamer Majestic passed the Paris at 4 o'clock Monday morning in latitude 48, longitude 29.

#### U. S. ARMY OFFICER HAS LANDED IN CUBA.

Sent to Garcia's Camp to Arrange For Landing of Troops—A Dangerous Journey.

KINGSTON, Jamaica, April 27.—Lieutenant Andrew S. Rowan, U. S. A., has landed on the coast of Cuba, near Santiago, from an open boat, accompanied by Cuban guides. He is on his way to General Garcia's camp as representative of the war department to arrange for landing of United States troops in eastern Cuba, Garcia to cover landing.

Lieutenant Rowan was detailed from the bureau of information for this dangerous service—dangerous because in civilian dress he is liable to be treated as a spy. He speaks Spanish and knows Cuba, having written a book on the subject. Moreover, he is an expert map maker.

Lieutenant Rowan left Washington under instant orders on April 9. He was directed to wait here prepared to go to Porto Rico or Cuba. As he went to Eastern Cuba it is inferred that a blow will be struck there before one is struck at Porto Rico.

With him he took an official Spanish section map of eastern Cuba, with recommendations made by the war department hydrographers. The exaction is that General Calixto will cover a landing of United States troops as he has arranged. A courier, with Lieutenant Rowan's first dispatches to the war department, will probably leave General Garcia's camp next Monday.

Spaniards Trying to Strengthen Manila. The Rebels Making Raids on Philippine Towns.

LONDON, April 27.—The Times correspondent at Hongkong, telegraphing Tuesday, says: "The Esmeralda brought 600 refugees, mostly Chinese, from Manila. On Saturday the (the 23d) the American vessels in Philippine ports put to sea, with one exception. The British consul is protecting American interests at Manila and the Americans will take refuge on British vessels.

"The guns have been taken from the Spanish ships to assist in the defense of Manila, where the fortifications are useless, the guns obsolete, the torpedo mines of doubtful value and ammunition of all kinds scarce. The Spaniards have an effective military force of 5,000 men.

"Despite official contradictions the rebels continue raiding the towns in the island of Luzon, and the appearance of the American squadron will be the signal for a descent on Manila. It is expected that the Spaniards will make but a feeble resistance."

#### THE SPANISH WAR FLEET.

No Sign of Immediate Intention to Leave Cape Verde.

ST. VINCENT, Cape Verde, April 27.—The Spanish fleet is still here, and there is no sign of immediate intention to put to sea.

Ammunition and projectiles are placed ready on deck for each gun, and on board the warships the men appear to be anxious to fight.

The squadron is still busy coaling and taking stores on board.

#### France Will Be Neutral.

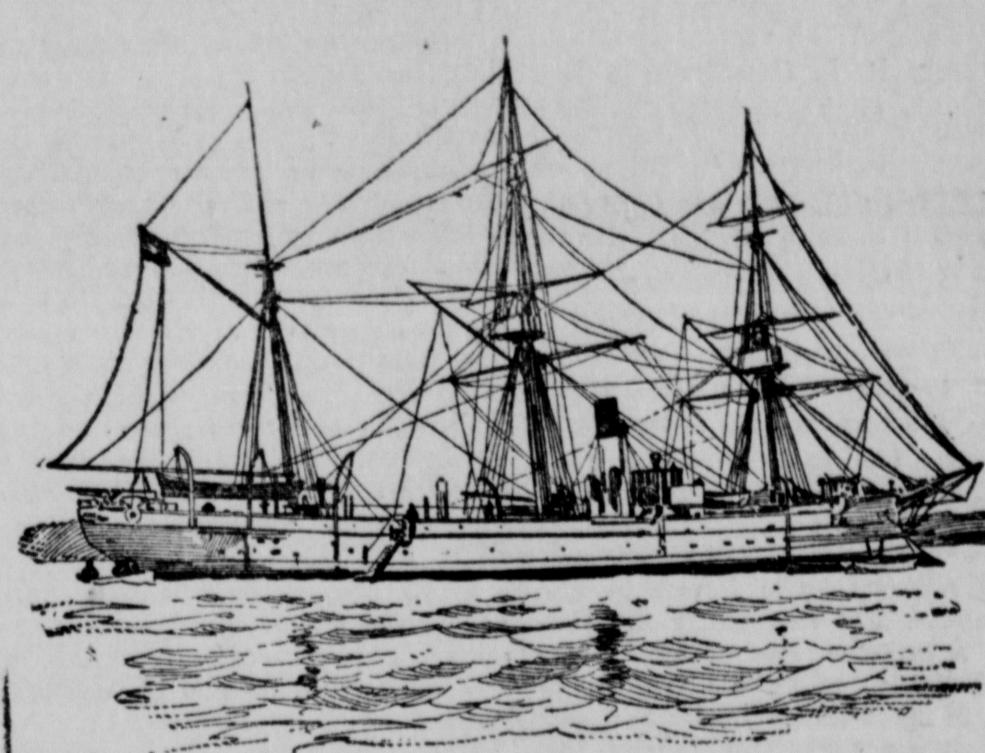

PARIS, April 27.—At the cabinet council here, the minister for foreign affairs, M. Hanotaux, informed his colleagues of the neutrality instructions issued, and the council approved of a proclamation of neutrality, which is about to be published by the French government and which is identical with the proclamation issued at the time of the Russo-Turkish war.

#### To Scout For Spanish Ships.

NEWPORT, R. I., April 27.—It is believed generally by naval officers here that the cruiser Columbia will join the Minneapolis to scout for Spanish vessels. It is learned that a number of carrier pigeons were taken aboard the cruiser before she sailed.

#### SINEWS OF WAR.

Dingley Points Out Necessity of More Revenue.

#### MONEY MUST BE PRODUCED.

Presents His Bill For the Taxation of Articles, Many From Which Revenues Were Secured During the Civil War. Some Changes Made In the Measure as Originally Formulated—Proposals Made by the Democrats—The Bill Under Debate In the House.

WASHINGTON, April 27.—Chairman Dingley of the ways and means committee submitted to the house with the war revenue bill a report, in which he said:

"An examination of the condition of the treasury will make it apparent that no time should be lost in providing ample ways and means for carrying to successful conclusion the war in which we are now engaged.

"The apparent cash balance in the treasury when the joint resolution appropriating \$50,000,000 for national defense was passed was about \$225,000,000, including the \$100,000,000 gold redeeming fund, or \$125,000,000 excluding the fund. But this balance was only apparent, inasmuch as \$13,000,000 consisted of fractional silver, largely uncirculated, and minor coins, leaving only \$112,000,000. But of this amount \$14,000,000 consisted of receipts from the sale of the Pacific railroad, held in the treasury for the payment of that amount of Pacific railroad bonds due Jan. 1 next, and \$33,000,000 of the bank redemption fund held for the payment of the notes of national banks failed, in liquidation of reducing circulation. Deducting these amounts and the actual available cash in the treasury at that time belonging to the government, exclusive of the greenback redemption fund, was only \$65,000,000.

"Inasmuch as a working balance of about \$40,000,000 is required to properly carry on the operations of the government there remained only \$25,000,000 belonging to the government available for use in meeting the \$50,000,000 appropriation. It will be necessary in order to meet all of the expenditure under the \$50,000,000 appropriation—all of which will have been expended within a few weeks—to use \$25,000,000 of the bank redemption fund, a part of which must be replaced before the close of the present calendar year.

"Inasmuch as the difficulties with Spain have plunged the country into war, whose magnitude and length cannot now be intelligently forecasted, it is necessary that measures should be immediately taken to provide ways and means to carry on naval and military operations on a scale and with a promptness which will exert an important influence in shortening the conflict. As the expenses of the preparations for defense that have been going on for nearly two months are at the rate of \$25,000,000 per month, or \$300,000,000 per annum, and the expenses of actual war will be much more, your committee are of opinion that the necessities of the country, as well as the early successful conclusion of the war, call for such ample provision, both by taxation and authority to make loans, for means to carry on naval and military operations.

"With this object in view, your committee recommend the levying of internal revenue taxes either on articles of voluntary consumption or on objects that will make such taxes fall mainly on persons able to contribute to the national defense, which will in the aggregate yield from \$90,000,000 to \$100,000,000 of additional annual revenue."

The report then enumerates the different taxes proposed and the estimate heretofore published of the amount of

revenue to be derived and continues: "These are all taxes on objects which were assessed during or subsequent to the Civil war, with one exception, and therefore open up no new and untried system of taxation. They are all internal revenue war taxes that can be collected by the existing internal revenue officials, slightly increased, with a small additional expense and with the minimum disturbance of trade, although they are all taxes which are unwelcome, and which it would not have been necessary to impose if war had been avoided.

"We have given, therefore, authority to issue and sell not exceeding \$500,000,000 of 10-20 3 per cent coin bonds, redeemable in ten years, to be offered as a popular loan, believing, as we do, that such a bond will be taken from time to time by the masses of the people."

The bill reported to the house contains three changes from the bill as originally drafted, as follows:

"A discount of 5 per cent on beer stamps is allowed after the passage of the act. Telephone messages are subject to a tax of 1 cent on messages transmitted 30 miles or more, the cost of which does not exceed 25 cent; between 25 cents and \$1.50, 2 cents; between \$1.35 and \$5, 5 cents; in excess of \$5, 10 cents. Official telephonic and telegraphic messages of the government are exempt from taxation. The differential of ½ cent on mineral waters and beverages, domestic or imported, not otherwise subject to internal taxation, in half-pint bottles, is eliminated, so that the dividing line is pints, bottles containing one pint or less to pay 1 cent, more than one pint, 2 cents."

Mr. Dingley gave notice that the bill would be called up today, general debate to continue today and Thursday and Friday, the bill to be considered for amendment under the five-minute rule until 4 o'clock, when a vote should be taken. The minority had agreed to this arrangement.

#### Lee Would Ignore a Challenge.

RICHMOND, April 27.—General Fitzhugh Lee is on waiting orders and has no present intention of going to Washington until summoned there. He has received no challenge to a duel from Lieutenant Ramon de Curranza, the naval attaché of the Spanish legation at Washington. He will ignore it.

#### New Fast Liner Purchased.

NEW YORK, April 27.—Hamburg-American line officials announce that Fuerst Bismarck and Columbia have been purchased by the United States.

#### JUDGE DAY CONFIRMED.

#### Letter Written by the President Accepting Sherman's Resignation.

WASHINGTON, April 26.—The president has nominated William R. Day of Ohio to be secretary of state, vice John Sherman, resigned, and John B. Moore of New York to be assistant secretary of state, vice William R. Day.

There was no delay in the senate in confirming the nomination of Judge Day to be secretary of state. His nomination was favorably reported from the committee on foreign relations without the formality of a meeting, the members expressing their concurrence through a poll made on the floor of the senate by Senator Davis. The nomination of Prof. Moore was referred to the committee.

The note written by the president in reply to the letter of Mr. Sherman tendering his resignation as secretary of state says:

"DEAR SIR—Your letter of the 25th instant, tendering your resignation of the office of secretary of state has been received and the resignation is accepted.

"I cannot let this occasion pass without congratulating you upon your useful and distinguished career covering a period of nearly half a century in the public service and filled with exceptional honor and success.

"Your great service has added luster to American statesmanship and will always be gratefully remembered by your

State Sanitary Commission Organized at Harrisburg.

## THE TEMPORARY OFFICERS.

Ex-Governor Pattison Is Temporary Secretary—Governor Hastings Helped to Organize the Body—Will Co-Operate With the National Board Recently Organized at Philadelphia—Officers Gone to Washington to Protest Against Secretary Alger's Plan.

HARRISBURG, April 27.—A conference of some of the leading citizens of Pennsylvania has been held in the executive chamber, at which a state sanitary commission was organized to take care of every soldier who goes to the front from Pennsylvania in the war with Spain. There were present Governor Hastings, Secretary of the Commonwealth Martin, Attorney General McCormick, John Converse, ex-Governor Robert E. Patterson, William L. Elkins, George D. McCrea and General Lewis Wagner of Philadelphia. George C. Thomas of Philadelphia and B. F. Jones and Robert Pitcairn of Pittsburgh were invited to attend. Previous engagements kept them away, but they authorized the use of their names.

A temporary organization was effected by the election of Mr. Converse as chairman; Mr. Jones, vice chairman; General Wagner, treasurer, and ex-Governor Pattison, secretary. The commission will co-operate with a national commission formed recently in Philadelphia. The state organization will look after the sick and wounded, take care of the widows and orphans and bring home for burial those who have been killed and died who enlisted from Pennsylvania. Money will be raised by popular subscription.

Governor Hastings and Adjutant General Stewart went to Washington to request Secretary of War Alger to modify his call for volunteers from the state of Pennsylvania. They believe that Secretary Alger's plan has had a depressing effect on the enthusiasm of the troops, and that it will ultimately disorganize and dismember the entire division. They are opposed to wiping out the five-regiment organization, which will be done if only 10 of the 15 regiments are mustered into the United States service, and leaving at home the three cavalry troops and three light artillery companies.

The camp and garrison stores of the Pennsylvania national guard have been shipped to Mount Gretna from the state arsenal. The troops began moving today and the entire division will be in the field by tomorrow noon. Governor Hastings, Adjutant General Stewart and Inspector General Morrell will return tonight from Washington. They have strong hopes that the war department will so modify its order for Pennsylvania volunteer as to keep intact the guard. They will make a strong plea for the mustering into the United States service of the division, cavalry and artillery included, as it is at present constituted.

## THE RODDY BROTHERS HUNG.

Both Men Protested Their Innocence on the Scaffold.

SOMERSET, Pa., April 27.—The two brothers, John and James Roddy, were hanged here yesterday for the murder of Farmer Davis B. Berker. Both men protested their innocence on the scaffold.

## New Pennsylvania Pensions.

WASHINGTON, April 27.—These Pennsylvania pensions have been issued. Original—Ebraim Morrow, Dayton, Armstrong, \$6; Henry Botsinger, Freeport, Armstrong, \$6; Major W. Wallace, West Middletown, Washington, \$3; Adam Hammaker, Altoona, \$8; Restoration and Reissue—George W. Brink, Ironia, Clearfield, \$12. Increase—Special, April 18—Julius M. Dutton, Corry, \$17 to \$30; Abraham Hendershot, Mansontown, Fayette, \$6 to \$10; Peter Middleton, Oil City, \$8 to \$10. Reissue—William H. Joslin, Pont. Erie, \$24; Ephraim Dell, Page, Huntingdon, \$8. Original widows, etc.—Minor of William A. Campbell, Avalon, Allegheny, \$14.

## Two Hung at Ridgway, Pa.

RIDGWAY, Pa., April 27.—Fred Rockwell and Patsy Banya have been hanged in the Elk county jail, being the first persons hanged in the county. Both died from strangulation. Rockwell murdered Lewis Haines, whom he wanted to get rid of in order that he might marry the widow. Banya murdered a fellow countryman named Parrotto Agusta.

## Public Can't See Launching.

PHILADELPHIA, April 27.—Henry W. Cramp of the Cramp Ship and Engine Building company said that, owing to the important naval work in progress at the shipyard, the launching of the battleship Alabama will be subject to stringent restrictions, and that the public will be prevented from entering the yard on that day.

Doing is the great thing, for if resolutely people do what

WASHINGTON, April 26.—The president has nominated William R. Day of Ohio to be secretary of state, vice John Sherman, resigned, and John B. Moore of New York to be assistant secretary of state, vice William R. Day.

There was no delay in the senate in confirming the nomination of Judge Day to be secretary of state. His nomination was favorably reported from the committee on foreign relations without the formality of a meeting, the members expressing their concurrence through a poll made on the floor of the senate by Senator Davis. The nomination of Prof. Moore was referred to the committee.

The note written by the president in reply to the letter of Mr. Sherman tendering his resignation as secretary of state says:

"DEAR SIR—Your letter of the 25th inst. tendering your resignation of the office of secretary of state has been received and the resignation is accepted.

"I cannot let this occasion pass without congratulating you upon your useful and distinguished career covering a period of nearly half a century in the public service and filled with exceptional honor and success."

"Your great service has added luster to American statesmanship and will always be gratefully remembered by your

## TO AID SOLDIERS

State Sanitary Commission Organized at Harrisburg.

## THE TEMPORARY OFFICERS.

Ex-Governor Pattison Is Temporary Secretary—Governor Hastings Helped to Organize the Body—Will Co-Operate With the National Board Recently Organized at Philadelphia—Officers Gone to Washington to Protest Against Secretary Alger's Plan.

HARRISBURG, April 27.—A conference of some of the leading citizens of Pennsylvania has been held in the executive chamber, at which a state sanitary commission was organized to take care of every soldier who goes to the front from Pennsylvania in the war with Spain. There were present Governor Hastings, Secretary of the Commonwealth Martin, Attorney General McCormick, John Converse, ex-Governor Robert E. Patterson, William L. Elkins, George D. McCreary and General Lewis Wagner of Philadelphia. George C. Thomas of Philadelphia and B. F. Jones and Robert Pitcairn of Pittsburgh were invited to attend. Previous engagements kept them away, but they authorized the use of their names.

A temporary organization was effected by the election of Mr. Converse as chairman; Mr. Jones, vice chairman; General Wagner, treasurer, and ex-Governor Patterson, secretary. The commission will co-operate with a national commission formed recently in Philadelphia. The state organization will look after the sick and wounded, take care of the widows and orphans and bring home for burial those who have been killed and died who enlisted from Pennsylvania. Money will be raised by popular subscription.

Governor Hastings and Adjutant General Stewart went to Washington to request Secretary of War Alger to modify his call for volunteers from the state of Pennsylvania. They believe that Secretary Alger's plan has had a depressing effect on the enthusiasm of the troops, and that it will ultimately disorganize and dismember the entire division. They are opposed to wiping out the five-regiment organization, which will be done if only 10 of the 15 regiments are mustered into the United States service, and leaving at home the three cavalry troops and three light artillery companies.

The camp and garrison stores of the Pennsylvania national guard have been shipped to Mount Gretna from the state arsenal. The troops began moving today and the entire division will be in the field by tomorrow noon. Governor Hastings, Adjutant General Stewart and Inspector General Morrell will return tonight from Washington. They have strong hopes that the war department will so modify its order for Pennsylvania volunteer as to keep intact the guard. They will make a strong plea for the mustering into the United States service of the division, cavalry and artillery included, as it is at present constituted.

### THE RODDY BROTHERS HUNG.

Both Men Protested Their Innocence on the Scaffold.

SOMERSET, Pa., April 27.—The two brothers, John and James Roddy, were hanged here yesterday for the murder of Farmer Davis B. Berker. Both men protested their innocence on the scaffold.

### New Pennsylvania Pensions.

WASHINGTON, April 27.—These Pennsylvania pensions have been issued. Original—Eohraim Morrow, Dayton, Armstrong, \$6; Henry Botsinger, Freeport, Armstrong, \$6; Major W. Wallace, West Middletown, Washington, \$8; Adam Hammaker, Altoona, \$8. Restoration and reissue—George W. Brink, Ironia, Clearfield, \$12. Increase—Special, April 18—Julius M. Dutton, Corry, \$17 to \$30; Abraham Hendershot, Mansontown, Fayette, \$6 to \$10; Peter Middleton, Oil City, \$8 to \$10. Reissue—William H. Joslin, Pont, Erie, \$24; Ephraim Dell, Page, Huntingdon, \$8. Original widows, etc.—Minor of Williamson A. Campbell, Avalon, Allegheny, \$14.

### Two Hung at Ridgway, Pa.

RIDGWAY, Pa., April 27.—Fred Rockwell and Patsy Banya have been hanged in the Elk county jail, being the first persons hanged in the county. Both died from strangulation. Rockwell murdered Lewis Haines, whom he wanted to get rid of in order that he might marry the widow. Banya murdered a fellow countryman named Parrot Agusta.

### Public Can See Launching.

PHILADELPHIA, April 27.—Henry W. Cramp of the Cramp Ship and Engine Building company said that, owing to the important naval work in progress at the shipyard, the launching of the battleship Alabama will be subject to stringent restrictions, and that the public will be prevented from entering the yard on that day.

Doing is the great thing, for if resolutely people do what is right in time, they

## SHE HAD A SHOTGUN

And Was Not Afraid to Pull the Trigger

### BUT HER AIM WAS BAD

So That No One Was Hurt—The War Spirit Seems to Have Invaded All Classes of Society, and So Influenced a Woman That She Took Up Arms.

There was a great deal of excitement yesterday afternoon in Pennsylvania avenue, caused by an irate woman with a shot gun and several men who were blasting stone.

Located between here and East End on Pennsylvania avenue are several stone quarries, which are far from any houses and do not cause any trouble when blasting is done. One of the quarries is in the neighborhood of several houses, and every time a blast is fired pieces of small stones fall on the houses and on several occasions windows have been broken. The neighbors have continually complained and wordy wars have ensued more than once, but the parties have never come to blows.

Yesterday afternoon an extra heavy blast was fired, and as usual the houses were covered by a rain of stones. A few seconds later a lady appeared in the door of one of the houses armed with a shot gun, and without saying a word she raised the gun and fired. The men caught a glimpse of her and ran, but the stone upon which they had been standing was peppered with shot. The woman then gave the men to understand what they had to expect and went back into the house. The end of the trouble is not yet, but it is safe to predict the next blast will not be made so heavy.

### THINKING OF SUING.

#### Judges and Clerks of Election Have a Plan.

The judges and clerks of the spring election have received no answer from Attorney General Monnet as to whether they are entitled to a full day's pay for handling the board of education election. They will insist that they be paid the money at the next meeting of the board, and some of the judges and clerks are in favor of entering suit if the money is not paid them at once.

### Remembered a Soldier.

Yesterday morning while the members of Company E were at parade rest in College street a number of well known business men bid the boys goodbye.

One young soldier was known to be without money, and a man knowing this pulled a \$5 bill from his pocket, put it in the palm of his right hand, shook hands with the young man and left. Not until he was on the train did he know what was given him.

## SOME NEW LAWS.

### Net Result of the General Assembly's Work.

### MIGHT HAVE BEEN BETTER.

However, It Is Considered a Very Good Average.

### NO LOUD CALL FOR AN APOLOGY.

As Is Usual, Many Things Were Done Which Might Just as Well Have Been Left Undone, While Many Things Were Left Undone Which, If Done, Would Have Proved a Blessing to Those Who Bear the Financial Burden of the State.

Columbus, O., April 2d.—[Special].

In ability of its members the legislature which has just adjourned compared favorably with former general assemblies, and was fairly industrious. A large number of good measures, and some of doubtful wisdom, to put it in the mildest form, were passed, while not a few measures whose enactment into the form of law was very desirable, were left to die on the calendar or were disposed of in other ways. Below is given a fairly exhaustive resume of the general bills which have become laws at the hands of the Seventy-third general assembly.

There were nearly 1,000 bills introduced in the house, and about 600 senate bills. Among the more important bills which did not become laws the following may be mentioned: The Burke bill, providing that extensions of street railway franchises can not be made for more than 25 years; the bill providing for annual examination of state banks by agents from the state auditor's office; the Riley bill providing for annual inspections of building and loan associations; the Riley bill abolishing capital punishment; the Parker bill requiring medical examination of all candidates for marriage; the Valentine and Bracken 2-cent railway fare bills; and the McCauley county salary bill.

One of the important joint resolutions adopted was that by Senator Carpenter, by which a proposition to amend the state constitution so as to give the governor the veto power will be submitted to the voters. The following are the new laws in brief:

#### For Poor and Helpless.

A new law by Representative Meacham provides that the fact that a pauper has been maintained wholly or in part during the time necessary for him to gain his residence in any township, with the intention of making him a charge on the township, shall be evidence against him in trying to establish his residence there.

A new law proposed by Representative Armstrong of Belmont county provides that superintendents or chief officers of children's homes may take the part of the parents in the legal proceedings necessary to give a child that is an inmate in the home to a person by formal adoption.

A new law, which was proposed by Representative Meacham of Cleveland, authorizes township trustees to remove nonresident paupers found in their townships back to the counties in which they are legal residents.

By the passage of senate bill No. 87 instruction is provided in the State Institution for the Deaf and Dumb of children that are blind as well as deaf and dumb. Until now there has been no place where children so terribly afflicted could be instructed. It has been found that they can be given a very fair education.

A law of which Senator Sheppard is the author gives the state board of charities complete control over the construction of all state, county and municipal institutions of charity and punishment. The plans must be submitted to the board and approved before the building can be proceeded with.

#### Elections, Etc.

Senator Pugh is the author of a new law which is intended to make the signatures to a petition asking the insertion of a ticket on the Australian ballot mean something. It forbids a person who has participated in the formation of a ticket, either by convention or petition, from signing a petition for any other ticket.

A new law of which Senators Mitchell and Pugh were the joint authors provides that on the petition of 500 voters the county commissioners may call a special election to vote on a proposition to erect county buildings of any kind.

By a new law nominations for offices in school districts lying partly in two or more counties shall be made to the board of elections of the most populous county.

#### Public Institutions, Etc.

Senate bill No. 228, which became a law, authorizes the trustees of the Ohio university at Athens to refund

Senator Williams secured the passage of a bill appropriating \$5,000 for the purpose of widening and straightening of the Kirkersville feeder of the Buckeye lake.

Senate bill No. 115 became a law, and provided means and methods for the opening of the new hospital for the insane at Massillon.

#### Plain Repealers.

Senator Robertson introduced and had passed a bill repealing the statute laying an excise tax upon express companies. These companies are caught now by another statute, and the repeal was generally agreed upon.

The first act of this legislature was the Burke law, which repeals the 50-year street railway franchise law of two years ago.

General Aquilla Wiley is the author of a law which repeals the Torrens land tenure act of two years ago. This simply takes so much dead matter from the statute books, as the supreme court has held the act invalid.

#### Municipalities.

A new law, of which Senator Sullivan is the author, provides that the same board of trustees may control city electric light and waterworks plants.

Senator Alexander secured the passage of a bill which provides that the one-fiftieth part of the cost of street improvement, which is to be paid by the whole city, shall be included in the levy, to be limited by the law fixing the maximum, under section 2689a ing the maximum, under section 2689a of the Revised Statutes.

Senator Alexander succeeded in having enacted in a law a general bill providing for pensions for the policemen in all cities in which the tenure of the police is during good behavior.

Senate bill No. 27, by Mr. Leet, is a law, and gives to the city of Toledo one-half of the taxes collected there on foreign insurance companies for her police pension fund.

By a new law, of which Representative Baldwin is the author, cities and villages may, on a two-thirds vote of the council, elect any justice of the peace the judge of the police court.

A new law by Mr. McKinnon permits municipal councils to create boards of trustees of electric light plants.

#### County Affairs.

Senator Decker secured the passage of a bill which will compel county commissioners to give the county surveyors all the engineering work they have to do. This will cut off favoritism to engineer friends of the commissioners.

Representative Gayman secured the amendment of the Dow law so that the poor fund of townships shall get their proper share of the taxes paid by any saloons located in them. Since the townships are to take care of all outside relief work, this is all the more desirable.

A new law of which Senator Sullivan is the author allows \$50 per annum to be paid out of the county treasury to the board of county visitors, for their expenses.

A law of which Mr. Redkey is the author provides that funds for paying the expenses of cleaning out public ditches may be raised in the same way as funds for the original construction.

Senator Cohen is the author of a new law requiring sheriffs advertising property for sale to give full description by street, number, etc.

Mr. Stewart secured the amendment of the Smith anti-lynching law so as to probably cure a constitutional defect.

By a new law township trustees will have power to fill vacancies in the office of justice of the peace.

One of the new laws provides for the construction of ditches extending into other states.

A law of which Mr. Bolin is the author changes the time for prosecuting attorneys to assume office from January to September.

A new law of which Senator Nichols is the author allows sheriffs who fear that mobs may break into their jails to take prisoners to the jail of any county in the state. Now he can only take them to the jail of a bordering county.

Senator Cromley is the author of a new law which provides for inter-towship ditches.

One of the new laws will prevent justices of the peace holding court outside the townships in which they were elected.

A new law of which Mr. Payne was the author authorizes prosecuting attorneys to bring actions to recover monies improperly paid out of the county treasuries.

A bill of which J. C. Otis was the author became a law revising the state pharmacy laws.

Deaf children of school age in Cincinnati and Cleveland will be taught in the public schools, under a new law.

Another new act entirely revises the schedule of fees for sheriffs for taking insane persons to the asylums.

Blake Stood by the Saloons of the State.

### BLK COUNTY FAIR BILL PASSED

There was a row before it became a law, trickery being charged, but it went through and is now a statute. It influences County Seats.

Since W. V. Blake took his seat in the Ohio senate his course has been closely watched by a great many people in this city, but even those who were most hopeful are compelled to admit that this district has been heard of but seldom during the session.

Not long ago he introduced a measure modifying the liquor laws so that proprietors of permanent saloons may sell liquor within the two mile limit of county fairs. It passed the senate, and went to the house where it met with warm opposition, although it passed. A controversy arose in which Mr. Boxwell told Mr. Roberts to "mind his own business." Mr. Boxwell claimed that the bill had been brought up by "subterfuge and trickery." He said that the saloon business was not lawful and hadn't any legal standing. Then he offered an amendment. Mr. Roberts said that the amendment was a "subterfuge" to defeat the bill. Mr. De Ran brought the row to a close by demanding the previous question. The bill was passed by a vote of 56 to 38.

### NOTABLE ENGAGEMENT.

Trip to Chinatown at the Grand This Evening.

Frank Lane, the well-known comedian, who has been with the Hoyt farces for a number of years, will present Charles H. Hoyt's "A Trip to Chinatown," at the opera house in this city, on Wednesday evening, and it will be a notable engagement, not only because the town commences to grin whenever a Hoyt production is announced, but with the present coming of that fertile author's most successful play, it is to be interpreted by the best company yet seen in that play.

Will the New Directories Be Delivered.

S. E. Andrews, who has charge of the work of compiling the new directory, is here from Salem where he has been employed in completing the directory for that place. There are a number of changes to make, and these will be forwarded to the printer at once.

The books will be delivered to subscribers about June 1.

### THE NATIONAL DEBT.

It Has Been Reduced Since the End of the Rebellion.

In answer to the inquiry of Subscriber the NEWS REVIEW gives the following information concerning the public debt of the country:

In 1865, when the rebellion came to an end, this country owed \$2,680,647.869.74. This was steadily reduced until at the first of this year it was but \$1,808,777,643.40.

### SHOOTING AT PEDESTRIANS.

There is a great deal of complaint because several boys in true wild west style line themselves up on the hillside between here and East End and shoot at pedestrians in Pennsylvania avenue. The boys are armed with fibert rifles, and, while they may not shoot to hit, the pedestrian has a very unpleasant feeling when he hears a bullet go crashing among the trees.

### TOMBSTONES ORGANIZING.

The Tombstone baseball club of Spring Grove campground will organize in the near future.

Their diamond will be graded this season and put in first-class shape, when they will be prepared to meet all comers as usual. The team will be stronger and better than usual, and will start the season with good financial backing.

### IMPROVING THE LINE.

The construction train worked today in the vicinity of the flint mill. Considerable filling in was done. The siding between Rochester and Beaver will soon be completed, and will be used when completed as a portion of the double track.

### SELECTING A DATE.

The library directors will meet in city hall this evening. The most important business to transact is the selecting of a date on which to hold the second annual picnic. The picnic, from what can be learned, will be held in Columbia park during August.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Label at the head of their columns.

SPAIN does itself the honor to believe the war will last several years.

If we are to judge by some of Spain's actions in this matter we are compelled to believe that the boy king is in charge of its affairs.

A VIGOROUS campaign in Cuba will not only have a good influence on the people who did not go to the war, but it will show Spain some things it ought to know.

ENGLAND'S position in this matter may not be appreciated today but when certain pages of history are filled with the events of this time, America will readily see that it pays to have a friend on the other side.

WHEN the Republicans of this district send a senator to the next legislature they should select a man who will make his name heard. As a hero, capable of great deeds, Mr. Blake can not be said to appear prominently as a success.

THE splendid service given Wellsville by the NEWS REVIEW is appreciated in our sister city, and the end is not. This paper will continue the same splendid daily report, and if present indications count for anything the appreciation expressed will be in a substantial manner.

## OHIO TROOPS.

Should it become necessary for the Ohio Guard to enter the federal army the state need not fear for the result. Ohio will take care of its splendid name and reputation. While there are few really good military men in sight they will develop, and when opportunity affords the old Buckeye state will, as in the past, be found battling where the bullets fly thickest. We will hear from Ohio before this war is over.

## WHAT COUNCIL HAS DONE.

When the people of East Liverpool defeated A. V. Gilbert for mayor they intended it as a mark of disapproval for what he had done while in office. It was the general intention to retire him to private life, and a majority of the people voted that way. Now comes council, five men against hundreds, and, setting aside that verdict of the people, places him in a responsible position. It is a slap against every man in this town who voted for a better, cleaner government.

## THE HANDWRITING.

It is now on the wall in connection with the action of East Liverpool's city council. Has council acted in harmony with the best interests of the people of this city? Does the action completely overriding Mayor Bough represent the action of the voters of this municipality?

Has council acted in accordance with common law and the statutes which control? If in line with the law, then their position is impregnable, despite the fact that the wishes of the people have been outraged. If untenable, then there will be stirring times ahead for the councilmen of East Liverpool. War to the knife has been declared by council against Mayor Charles F. Bough. If he is the man he should be, he will yet convince council that he is the chief magistrate of this city.

## Shook Hands With Friends.

Mrs. Edward McLaughlin, wife of Pilot McLaughlin, stopped in the city long enough to shake hands with friends. She left with her husband on the steamer Urania.

## GAVELS FELL AT NOON

And the Seventy-Third General Assembly Died.

## CRANK LEGISLATION PROMINENT

Among the Features of the Session—There Were Factions and They Have Never United—There Was Continual Warfare and Very Little Legislation.

### [SPECIAL CORRESPONDENCE]

COLUMBUS, April 27.—The Seventy-third general assembly is a thing of the past. Its record is made up and in it there is little to cause the session to be long remembered. At noon today Lieutenant Governor Jones and Speaker Mason dropped their gavels for the last time and declared their respective bodies adjourned sine die. A big sigh of relief went up from the state house and indications are that a majority of the people feel the same way. On account of the character of the bills introduced this legislature has kept a great many people on the anxious seat, but as was predicted early in the session none of these dangerous bills were enacted into law and little damage was done.

The real business of the session was practically concluded last Saturday. Short sessions of house and senate were held yesterday afternoon and a few bills were passed. This morning, however, was given up to the necessary routine matters concluding the session and an hour to farewell social amenities. The belligerents laid down their arms and numerous speeches were made expressing the felicity of the factions. Governor Jones and Speaker Mason thanked the bodies over which they preside for the decorum and consideration with which they had been treated during the trying days of the winter, and all was harmony. Handsome gifts were presented to the presiding officers of both branches and to the chief clerks.

After the session was over the members spent another hour bidding last farewells and sifted gradually away until most of the members were speeding away to their homes.

This session has been noted for the large number of "crank" and reform bills introduced, and the passage of almost none of these measures. The session opened up with a bitter broil over the election of a United States senator and the feeling engendered at that time has had an effect on the work of the entire session. The factions never united and the result was continual fighting and little legislation enacted.

The only notable reform accomplished was the practical abolition of capital punishment as a mandatory penalty for murder in the first degree. One more vote would have brought about the entire abolition of judicial murder in the state. The house passed such a bill and the senate stood a tie on the proposition. The result was a compromise in the shape of the Sullivan-Riley bill which provides that when a jury finds a person guilty of murder in the first degree and recommends him to the mercy of the court, the judge may sentence him to life imprisonment, instead of to the electric chair. This bill passed both houses and became a law.

A large amount of anti-corporation legislation was introduced but only one bill of consequence was made into law. This was the anti-trust bill and it is a most sweeping act. If its provisions are carried out it will be unlawful for any of the big commercial combinations to do business in Ohio, unless they make an entire revision of their methods of doing business.

In this class of legislation may be mentioned the repeal of the Rogers street railway law giving municipalities authority to grant fifty year franchises to street railways that consolidate.

The most important bill affecting the operation of the government of the state was the McKinnon bill placing in the hands of the attorney general all of the legal business of the state. This is a radical reform and will revolutionize methods of work in several of the state departments.

Among the most important acts of the legislature was the passage of a joint resolution declaring that the centennial of the admission of Ohio into the union shall be celebrated with a grand exposition in 1905, and the location of that exposition at Toledo. If present plans are not interfered with by the war this big show will be second only to the World's Fair held in Chicago.

The legislature also decided to build another state building at Columbus to cost \$400,000. This is intended to remove the drawbacks connected with the state house.

Bicycle riders of the state came in for

some legislation, the best of which was a bill by Mr. Rankin, of Clark county, providing for the construction of bicycle paths by county commissioners. Under this act the commissioners are authorized to levy a tax of \$1 per year on all bicycles in the county, and to use the money exclusively for the construction of bicycle paths.

The opening of the war during the session of the legislature resulted in the passage of a bill appropriating one million of dollars for war purposes, and the equipment and organization of the National Guard on a war footing. The policy of the president and congress in the preliminary negotiations with Spain was also endorsed by the legislature.

Among other general laws of consequence may be mentioned the bill providing for the colonization of feeble-minded adults; providing for the education of the deaf in every county; an amendment to the Workman law so as to return to the three director system in the townships; the extension of the state canal commission for two years longer; authorizing the appointment of women as notaries public; authorizing the use of ballot machines in elections; giving circuit courts final jurisdiction in judgments involving not more than \$500.

The striking features of local legislation were the passage of several radical municipal ripper bills, notable among which were those for Cincinnati, Hamilton and Portsmouth; also a large amount of bonds authorized for the city of Cleveland.

Although not a matter of legislation, the election of Marcus A. Hanna as United States senator may be mentioned among the stirring achievements of the assembly.

Many more bills of minor importance were passed, but those mentioned above compose the list of measures that are of vital importance.

There were important movements to reduce the rates of railroad fare and to place county officers on salary, but both failed.

## A BATTLE EXPECTED.

Spanish Fleet Going Out to Meet Uncle Sam's Big Boats.

MADRID, April 27.—[Special.]—The announcement is made here today that the Spanish fleet at present stationed in the Phillipine islands, will steam out to meet the Asiatic squadron of the American navy, now hastening toward the islands.

A battle is expected as it is the only hope of the Spaniards. If the American fleet is not defeated the islands are lost.

## SPAIN GOT ONE.

The Bark Saranac Has Been Captured Near Manila.

MADRID, April 27.—[Special.]—A dispatch from Manila this morning says that the Spanish have captured the American bark Saranac near that place.

The boat is a small one, but there was great enthusiasm in the streets this morning when the news was announced.

## IMPORTANT CONFERENCE.

General Miles and Cuban Generals at the White House.

WASHINGTON, April 27.—[Special.]—General Miles and a number of representatives of the Cuban army attended an important conference at the White House, this morning.

It is stated that plans for the war were carefully considered, among them being the first campaign.

## ANOTHER PRIZE.

The Terror Is Adding to the Captured Fleet.

KEY WEST, April 27.—[Special.]—The Terror this morning captured a prize to the south of this place, and it was brought into the harbor.

The prize bore the name Abolwar, and is a rich one, although the vessel is not large.

### Policeman Would Go to War.

Since it has been learned that several vacancies exist in Company E, Captain Hill has been asked by a well known policeman for one of the places. Up to a late hour this afternoon no reply had been received to the request, but it is highly probable a sub-officer will be wanted in the near future.

### Married Last Night.

John T. Mountford and Miss Sadie March were married last evening by Doctor Taggart. They will at once go to housekeeping in a pleasant home in Robinson street.

## MAYOR BOUGH REFUSES

To Swear In the Officers Appointed by Council.

Mayor Bough when seen this morning, with reference to the action taken by council last night, said:

"Mr. Ruhe and Mr. McMillan came to my office this morning to be sworn in and qualified as officers. I refused to do this, and told them to see the ones who have been engineering their part of the deal. I expect to stand by the people who have stood by me. I am for those whose appointments I sent to the meeting last night."

"They admitted the terms of the old officers had expired, and virtually took it upon themselves to take the matter of appointment out of my hands. All I have to say is this: They have found they have the wrong man to deal with, and there are some lively times in store for the old town."

"Will you make known your plans?" asked the reporter.

"I will not, but time will tell all."

### No Arrests.

No arrests were made during the night, and the only person in the jail today was Samuel Nally, who was given a hearing yesterday. The mayor has not yet said what shall be done with him.

No calls were sent to the fire station, and matters in police court during the night were very quiet.

EAST LIVERPOOL, O., WEDNESDAY, APRIL 27.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Label at the head of their columns.

SPAIN does itself the honor to believe the war will last several years.

If we are to judge by some of Spain's actions in this matter we are compelled to believe that the boy king is in charge of its affairs.

A VIGOROUS campaign in Cuba will not only have a good influence on the people who did not go to the war, but it will show Spain some things it ought to know.

ENGLAND'S position in this matter may not be appreciated today but when certain pages of history are filled with the events of this time, America will readily see that it pays to have a friend on the other side.

WHEN the Republicans of this district send a senator to the next legislature they should select a man who will make his name heard. As a hero, capable of great deeds, Mr. Blake can not be said to appear prominently as a success.

THE splendid service given Wellsville by the NEWS REVIEW is appreciated in our sister city, and the end is not. This paper will continue the same splendid daily report, and if present indications count for anything the appreciation expressed will be in a substantial manner.

## OHIO TROOPS.

Should it become necessary for the Ohio Guard to enter the federal army the state need not fear for the result. Ohio will take care of its splendid name and reputation. While there are few really good military men in sight they will develop, and when opportunity affords the old Buckeye state will, as in the past, be found battling where the bullets fly thickest. We will hear from Ohio before this war is over.

## WHAT COUNCIL HAS DONE.

When the people of East Liverpool defeated A. V. Gilbert for mayor they intended it as a mark of disapproval for what he had done while in office. It was the general intention to retire him to private life, and a majority of the people voted that way. Now comes council, five men against hundreds, and, setting aside that verdict of the people, places him in a responsible position. It is a slap against every man in this town who voted for a better, cleaner government.

## THE HANDWRITING.

It is now on the wall in connection with the action of East Liverpool's city council. Has council acted in harmony with the best interests of the people of this city? Does the action completely overriding Mayor Bough represent the action of the voters of this municipality?

Has council acted in accordance with common law and the statutes which control? If in line with the law, then their position is impregnable, despite the fact that the wishes of the people have been outraged. If untenable, then there will be stirring times ahead for the councilmen of East Liverpool.

War to the knife has been declared by council against Mayor Charles F. Bough. If he is the man he should be, he will yet convince council that he is the chief magistrate of this city.

## Shook Hands With Friends.

Mrs. Edward McLanglin, wife of Pilot McLanglin, stopped in the city long enough to shake hands with friends. She left with her husband on the steamer *Urania*.

## GAVELS FELL AT NOON

And the Seventy-Third General Assembly Died.

## CRANK LEGISLATION PROMINENT

Among the Features of the Session—There Were Factions and They Have Never United—There Was Continual Warfare and Very Little Legislation.

### [SPECIAL CORRESPONDENCE]

COLUMBUS, April 27.—The Seventy-third general assembly is a thing of the past. Its record is made up and in it there is little to cause the session to be long remembered. At noon today Lieutenant Governor Jones and Speaker Mason dropped their gavels for the last time and declared their respective bodies adjourned sine die. A big sigh of relief went up from the state house and indications are that a majority of the people feel the same way. On account of the character of the bills introduced this legislature has kept a great many people on the anxious seat, but as was predicted early in the session none of these dangerous bills were enacted into law and little damage was done.

The real business of the session was practically concluded last Saturday. Short sessions of house and senate were held yesterday afternoon and a few bills were passed. This morning, however, was given up to the necessary routine matters concluding the session and an hour to farewell social amenities.

The belligerents laid down their arms and numerous speeches were made expressing the felicity of the factions. Governor Jones and Speaker Mason thanked the bodies over which they preside for the decorum and consideration with which they had been treated during the trying days of the winter, and all was harmony. Handsome gifts were presented to the presiding officers of both branches and to the chief clerks.

After the session was over the members spent another hour bidding last farewells and sifted gradually away until most of the members were speeding away to their homes.

This session has been noted for the large number of "crank" and reform bills introduced, and the passage of almost none of these measures. The session opened up with a bitter broil over the election of a United States senator and the feeling engendered at that time has had an effect on the work of the entire session. The factions never united and the result was continual fighting and little legislation enacted.

The only notable reform accomplished was the practical abolition of capital punishment as a mandatory penalty for murder in the first degree. One more vote would have brought about the entire abolition of judicial murder in the state. The house passed such a bill and the senate stood a tie on the proposition. The result was a compromise in the shape of the Sullivan-Riley bill which provides that when a jury finds a person guilty of murder in the first degree and recommends him to the mercy of the court, the judge may sentence him to life imprisonment, instead of to the electric chair. This bill passed both houses and became a law.

A large amount of anti-corporation legislation was introduced but only one bill of consequence was made into law. This was the anti-trust bill and it is a most sweeping act. If its provisions are carried out it will be unlawful for any of the big commercial combinations to do business in Ohio, unless they make an entire revision of their methods of doing business.

In this class of legislation may be mentioned the repeal of the Rogers street railway law giving municipalities authority to grant fifty year franchises to street railways that consolidate.

The most important bill affecting the operation of the government of the state was the McKinnon bill placing in the hands of the attorney general all of the legal business of the state. This is a radical reform and will revolutionize methods of work in several of the state departments.

Among the most important acts of the legislature was the passage of a joint resolution declaring that the centennial of the admission of Ohio into the union shall be celebrated with a grand exposition in 1905, and the location of that exposition at Toledo. If present plans are not interfered with by the war this big show will be second only to the World's Fair held in Chicago.

The legislature also decided to build another state building at Columbus to cost \$400,000. This is intended to remove the present location of the state house.

Bicycle riders of the state came in for

some legislation, the best of which was a bill by Mr. Rankin, of Clark county, providing for the construction of bicycle paths by county commissioners. Under this act the commissioners are authorized to levy a tax of \$1 per year on all bicycles in the county, and to use the money exclusively for the construction of bicycle paths.

The opening of the war during the session of the legislature resulted in the passage of a bill appropriating one million of dollars for war purposes, and the equipment and organization of the National Guard on a war footing. The policy of the president and congress in the preliminary negotiations with Spain was also endorsed by the legislature.

Among other general laws of consequence may be mentioned the bill providing for the colonization of feeble-minded adults; providing for the education of the deaf in every county; an amendment to the Workman law so as to return to the three director system in the townships; the extension of the state canal commission for two years longer; authorizing the appointment of women as notaries public; authorizing the use of ballot machines in elections; giving circuit courts final jurisdiction in judgments involving not more than \$500.

The striking features of local legislation were the passage of several radical municipal ripper bills, notable among which were those for Cincinnati, Hamilton and Portsmouth; also a large amount of bonds authorized for the city of Cleveland.

Although not a matter of legislation, the election of Marcus A. Hanna as United States senator may be mentioned among the stirring achievements of the assembly.

Many more bills of minor importance were passed, but those mentioned above compose the list of measures that are of vital importance.

There were important movements to reduce the rates of railroad fare and to place county officers on salary, but both failed.

## MAYOR BOUGH REFUSES

To Swear In the Officers Appointed by Council.

Mayor Bough when seen this morning, with reference to the action taken by council last night, said:

"Mr. Ruhe and Mr. McMillan came to my office this morning to be sworn in and qualified as officers. I refused to do this, and told them to see the ones who have been engineering their part of the deal. I expect to stand by the people who have stood by me. I am for those whose appointments I sent to the meeting last night."

"They admitted the terms of the old officers had expired, and virtually took it upon themselves to take the matter of appointment out of my hands. All I have to say is this: They have found they have the wrong man to deal with, and there are some lively times in store for the old town."

"Will you make known your plans?" asked the reporter.

"I will not, but time will tell all."

### No Arrests.

No arrests were made during the night, and the only person in the jail today was Samuel Nally, who was given a hearing yesterday. The mayor has not yet said what shall be done with him.

No calls were sent to the fire station, and matters in police court during the night were very quiet.

## NEW OFFICERS CHOSEN

Council Turns Down Mayor Bough's Appointments

TO SELECT A NEW LIST

Calling Them Deputy Marshals—A Number of Names Did Not Go Through Although Whan and Grim Were Passed While A. V. Gilbert Got a Place.

The meeting of council held last evening was an interesting session and was largely attended.

Every member was in his chair when President Marshall called the session to order, and after the clerk had read the minutes a petition was received asking for a special bond election Saturday, May 14, to give the citizens a chance to again vote as to whether \$15,000 worth of bonds shall be issued for the purpose of building a hospital, the Hospital association agreeing to pay all the expenses of the election.

Mr. Peach called attention to the dangerous condition of Ridgeway avenue, and asked if the city would be liable for damages if it was barricaded and danger signals were placed at each end.

Solicitor McGarry said it was his belief that the barricades should be put up immediately, but he would not like to give a positive opinion. The street commissioner will see that the street is barricaded.

Engineer George reported that the new sewer system would take eight miles of pipe and would cost about \$32,565. As the property to be assessed was not designated the ordinance was referred to the ordinance committee for correction.

An ordinance to improve Avondale street to Norton street caused a great deal of discussion, and was finally passed under suspension of the rules, Mr. Stewart voting no.

A resolution to pave Apple alley from Robinson to Kossuth streets was passed, and an ordinance providing for a special bond election for \$15,000 for the purpose of providing a hospital, to be held May 14, 1898, was introduced. Mr. Stewart made a motion the rules be suspended, and it was seconded by Mr. Ashbaugh. The ordinance was strongly opposed by Mr. Peach, although the association agree to stand the expense of the election.

Mr. Stewart withdrew his motion in order that he can furnish the member with data to show that the institution will be sustained with no cost to the city, and it is confidently expected that the ordinance will pass at the next meeting.

The bonds of the city officers were referred to the finance committee, and the residents of the east side of Lincoln avenue from Burton alley to Grant street were instructed to pave the sidewalks within 10 days.

President Marshall was called out, and while he was gone a short recess was taken. When he returned he asked Mayor Bough if he was ready to submit his list of appointments and Clerk Hanley read the following list:

For policemen—J. W. Wyman, J. W. Grant, Millard Cochran, Jerry McMillan.

For fire chief—H. C. Morley.

For engineer—J. A. George.

For sewer commissioner—William Cartwright.

For wharfmaster—Patsy Kernan.

For sealer of weights and measures—R. D. Vanfossan.

Mayor Bough in regard to his appointments said: "Viewing my election as the people's victory for good government I have made my selections accordingly, and have in the list seven Republicans, one Democrat and one Prohibitionist. I have chosen them believing they are especially fitted, and have made no change since our preliminary caucus. Judging by your expressions both private and public that you wish to put no obstacle in my way, I hope you will see your way clear to confirm the appointments."

Mr. Challis suggested that a secret ballot be taken on the names, but a majority were in favor of an open ballot, and the roll was called on the name of John W. Wyman, all members voting no but Mr. Cain and Mr. Ashbaugh. Millard Cochran was turned down by the same vote. Mr. Stewart and Mr. Olnhausen supporting his nomination. J. W. Grant and Jerry McMillan failed to receive a vote. H. C. Morley, J. A. George and William Cartwright were confirmed unanimously. Patsy Kernan received the votes of Messrs. Ashbaugh, Marshall and Stewart, while R. D. Vanfossan received but one vote, that of J. Cain.

No policemen had been confirmed. Mr. Peach moved that A. V. Gilbert be appointed deputy marshal.

## LEPT ON THE FLOOR

Soldier Boys Got Their First Rough Experience.

### THEY WANT THEIR OFFICERS

Not a Man Will Enlist Unless They Are Taken as an Organization—Close Discipline Maintained—Sergeant Kinsey Was Hurt.

AKRON, April 26.—[Special.]—All the members of Company E are now in the Sons of Veterans' armory at this place, with orders to remain inside for the rest of the night or until such time as the command is prepared to move to the railway station and proceed to Camp Bushnell at Columbus.

After we left East Liverpool we were given another monster demonstration at Wellsville, and, between that place and Alliance, the people turned out to see the soldiers as we passed. The boys, in spite of recent partings with friends, were all in good spirits, and discipline was closely maintained. A crowd of railroad men cheered us heartily at Bayard, and from there to Alliance there was more enthusiasm.

At Alliance the people were at the station in force. Thousands were there to witness the departure of Company K who were drawn up in line. The enthusiasm was unbounded, and soldiers were constantly being presented with something to make life in camp more enjoyable.

The scene was repeated at Canton, where we were joined by three companies. When we arrived in Akron the enthusiasm was not so marked.

The companies are quartered in different parts of the city, and the Liverpool boys have as nice a place as any. We will likely sleep on the floor of the armory tonight.

Company E attracted attention everywhere, each man having been supplied by some kind soul with red slips of paper bearing these words "Remember the Maine." Many civilians also wore the emblem.

The regiment has been assembled here, with Colonel Hard in command. Report has it that we are to move early Wednesday morning on Columbus, for the purpose of occupying Camp Bushnell, but there is another story that we will not start until Thursday, or at best Wednesday afternoon.

There have been a great many conferences among representatives of the different companies since the word was passed around that there would be some change in the officers when the regiment is mustered into the United States service. The opinion is general that companies will not volunteer unless the whole regiment is commanded by our own officers from colonel down.

The boys are all well with the exception of Sergeant Kinsey, who was sitting in the door of a baggage car when his foot struck the railing of a bridge. He will be well in a few days.

# COAL FOR UNCLE SAM

Thousands of Tons Went Down  
the River Today.

## IT GOES TO NEW ORLEANS

But Will Be Distributed to All the Coal-ing Stations on the Gulf Coast For Use of What Government Vessels May Be In Those Waters.

The present rise in the river has been anxiously looked forward to by coal operators, and today the marks registered 18 feet and rising slowly. Since yesterday morning and until this afternoon no less than 2,500,000 bushels have been sent south, and every shipment has been purchased by the government.

Operators have been given to understand that all shipments will be accepted, and that the Crescent city will supply the other Gulf coaling stations.

Operators are sending all the coal mined to New Orleans, and expect good prices for it from the government. Prices on coal have increased  $\frac{1}{2}$  at  $\frac{1}{2}$  of a cent a bushel, and an advance is yet looked for.

The boats going out yesterday are as follows: Belle McGowan, Acorn, Little Dick, Relief, Jim Wood, Coal City, George Shiras, I. N. Bunton, Dave Wood, Clifton, J. C. Risher, Rescue, making a total of 52 boats, 36 barges and 21 flats, carrying 2,525,000 bushels.

The Queen City is down tonight, and Urania and Ben Hur were the only boats up today.

## A LONG CONFLICT

**That Is Hon. G. P. Ikirt's Belief Regarding the War.**

Dr. Ikirt left for the west this morning, and to a reporter at the station said:

"This war with Spain, it seems to me, will not be an easy one by any means. The Spaniards are a class of people that will fight until the end, and will use every possible means to gain their point. We may have to call in 100,000 more men before the war is over."

## Regulars Are Anxious.

Will Porter, of this place who is connected with Ft. Hancock, N. J., has written friends here stating that all the regular soldiers are eager for war and only waiting for the word to go to the front.

Porter is connected with Battery A, Fifth United States Artillery, at Ft. Hancock, where are no less than 30, 13 inch guns, and all pointing seaward.

## Still Coming.

Yesterday a number of moving were handled at the freight depot. The effects of James Barker were received from Akron, and the effects of Samuel Orr were sent to Allegheny and those of J. Ballantine were sent to East Palestine. Way bills for several others have been received but the effects have not yet arrived.

## Testing Speed For Money.

George Rowe and Harrison Rinehart yesterday signed articles for a race between their horses for \$200 a side. The race will be held at the Beaver track early in June, and much money will be wagered on the result, the odds, in the opinion of expert horsemen, being in favor of Wire Nail, owned by Rowe.

## War Fever Rampant.

George Gaston has returned home after spending several months at Washington and Jefferson college. He states that the war fever is at its height in Washington, and every three out of four men in the school belong to either the naval militia or the Pennsylvania guard.

## WATER CONSUMERS.

Water consumers will make note that prompt payment of water rent will save the consumer added percentage. Be wise and attend to this matter in time.

## TRUSTEES.

### Will Be Heard Tonight.

The trial of Martin Mears, charged by Chief Johnson with fast and reckless driving, will be in the mayor's court tonight at seven o'clock. Mears states he is innocent of the charge.

## Taken a Position.

Thomas Black, who has been spending several weeks at his home in New Wilmington, Pa., has returned to the city and taken a position at the Sebring pottery.

## After a Place In the Guard.

Capt. John H. Simms left last night for Columbus, where he went to seek a place in the National Guard.

## SOME NEW LAWS.

for cleaning out county ditches.

Another new law authorizes county commissioners to lay a license of \$1 per annum on bicycles and build bicycle paths with the proceeds.

### Public Schools.

Representative Boxwell secured the enactment of a law providing a method by which special school districts which wish to do so may abandon the organization and be restored to their original condition.

A law of which Representative Snyder is the author provides that teachers in special school districts which are made up partly from two counties or more, need have a certificate from the school examiners of only one of them.

An important amendment to the Workman school law was made by the passage of the Brorain senate bill. It gives the local school directors once more the right to employ the teachers. However their selection must be approved by the township board of education.

### Interest to Agriculture.

Senator Cromley secured the passage of a bill to authorize the state board of agriculture to issue \$80,000 of bonds to purchase more ground for the state fair property, and to repair state fair buildings and erect others.

House bill No. 185, of which Representative Love is the author, makes it a misdemeanor for any one to sell a commercial fertilizer until it has been submitted to the state board of agriculture for analysis, and he must use a label showing what it contains.

A law by Representative McCurdy provides that cheese that contains less than 20 per cent of butter fat shall be called "skimmed cheese," and so labeled before being placed on the market.

A new law, of which Representative Smith of Delaware is the author, provides a new method of tabulating and publishing the agricultural statistics of the state. Heretofore they have been sent to the secretary of state and arranged and published by him in his annual report. The Smith law provides that they shall be sent to the secretary of the state board of agriculture and published by him.

A senate bill by Mr. Cromley, which became a law, provided for the payment of a debt of the state fair board of \$11,800.

By the passage of house bill No. 233 the commissioners of any county which has fair grounds improved with buildings are authorized to have the buildings insured.

By the passage of a bill of which Senator Cromley is the author a change of a radical nature in the manner of electing the members of the state board of agriculture has been made. Hereafter the members will be elected each year to serve for five years each.

Representative Swingle secured the passage of a bill which will permit farmers to make and sell not more than 12 barrels of apple vinegar in any year, with the label "domestic fruit vinegar."

### Roads and Highways.

Senator McKinnon secured the passage of a bill which will permit the grading as well as macadamizing of country roads under section 4686-13 of the Revised Statutes.

Representative Hinsdale is the author of a new law by which, if a land-owner fails to remove noxious weeds from the roadside alongside his property, the township trustees may remove them at his expense.

### Courts and Practice.

A law of which Representative Reynolds is the author seeks to compel executors and administrators to settle up estates with more promptness. It places new requirements as to the filing of claims and accounts—the whole effect being to force the closing up of an estate within three years at the most.

A law of which Senator Long of Piqua is the author provides the same methods for carrying cases up from the justices of the peace courts as now obtain for carrying cases up on error from the common pleas courts.

A law which was pushed to passage by Senator Finck cures a number of sales of real estate made by religious and ecclesiastical societies, about which some legal clouds have hung.

A new law of which Senator May of Kenton is the author provides that absence from the state shall not entitle a person to bring a contest proceeding against a will after two years after it is filed for probate.

Representative Woleott is the author of a new law which will interest lawyers especially. It provides that judgments, given by a court in chambers or any member of it, may be modified on bane.

A bill of which Senator Long is the author, and which became a law, pro-

vides that justices of the peace may vacate judgments within four days after they are rendered and grant a new trial.

By the enactment of senate bill No. 25 an additional common pleas judge in the first subdivision of the Third Judicial district is made.

Mr. Bolin is the author of an important new law which comes as one of the results of the Washington C. H. lynching and riots. It provides that where a trial is taken from one county to another on a change of venue the county from which it is taken shall pay all the costs of the trial. In the trial of Colonel A. B. Coit a nice question was raised as to whether Pickaway county or Fayette should pay the jury fees.

By the passage of senate bill No. 6 an additional common pleas judge in the Tenth Judicial districts is created.

A joint bill by Senators Riley and Sullivan providing that where jurors recommend clemency, murder in the first degree shall not be punishable by death, but by life imprisonment.

### In Labor's Interest.

A law which was proposed by Representative Davis of Cleveland provides that if the owner of a shop or factory fails to obey an order from the state inspector of shops and factories to make changes in the building or machinery for greater safety of employees, and an accident follows, the fact shall be prima facie evidence against him in a suit for damages for the accident.

A law by Representative Davis of Cleveland gives the state inspector of shops and factories power to order protected stairs in shops, factories and public buildings of all kinds, and provides penalties for failure to obey orders from this officer.

Representative Davis secured the passage of a bill which requires proprietors of shops, stores, etc., in which large numbers of women are employed, to provide seats for them while at work, toilet rooms, lavatories, etc.

Another important law, secured by the passage of one of Mr. Davis' bills, give additional fire protection to public halls and places of large public gatherings, and puts the matter in the hands of the state inspector of shops and factories.

One of the most important laws made by the legislature at this session, to the laboring people, is that which requires the weighing of coal for the determination of the pay of miners, before it is screened. The bill was introduced and pushed to passage by John P. Jones of Stark county. The miners of the state have been asking for this law for years. There was no opposition to it this time from the mine operators.

Representative Davis secured the passage of a bill giving better fire protection to shops and factories, similar to that relating to fire protection in public halls.

The passage of house bill No. 13 gives a law by which the state inspector of shops and factories will collect statistics as to accidents occurring in such plants.

Representative Davis is the author of a law making the state bakeshop inspection law effective, and another providing for the removal of emery dust from shops where grinding is done.

Another of the new laws makes it unlawful for school youth, during the school year, to be employed in mines.

Mr. Hinsdale is the author of a new law which puts checkweighmen at mines under bond and oath.

### Miscellaneous.

A new law, of which Mr. Meachem is the author, provides that all fees, fines and forfeitures collected by the state food commissioner must be turned into the state treasury by him. This takes away from the commissioner quite a private snap.

Senator Lutz secured the passage of a bill which provides that before any board of equalization can add to the tax valuation of a person's property, he must have had at least five days' notice of such intention and a chance to appear and oppose it.

Senator Sullivan secured the passage of a bill which will earn for him the sincere thanks of bicycle riders. Two years ago a law was enacted compelling railroad companies to carry wheels as baggage. The railroads avoided it in many cases by refusing to carry them unless they carried no lamps, claiming that the oil in the lamps made them dangerous freight. The Sullivan law provides that no such objection can be made either on account of lamps, tool bags or any other accouterment of bicycles.

House bill No. 9, which became a law, provides for refunding to the estates that paid it the amount of taxes collected under the direct inheritance tax, which was declared invalid by the supreme court before it was thus removed from the statute books. This bill was passed once before, but the state auditor discovering that it failed to get the necessary majority, refused

to sign it. The bill was then referred to the state auditor, who found that it was unconstitutional, and so it was not signed. The bill was then referred to the state auditor, who found that it was unconstitutional, and so it was not signed.

A new law, which was proposed by Representative Meachem of Cleveland,

## UNION LABELS.

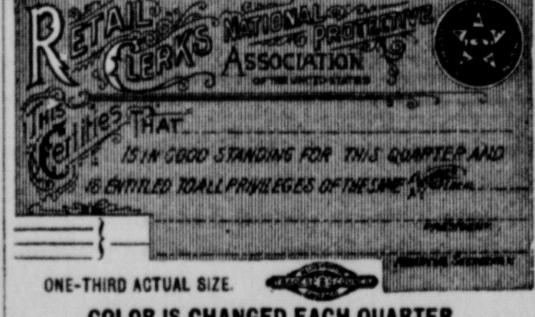

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

### PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases.

Endorsed by the A. F. of L.

ONE-THIRD ACTUAL SIZE.

COLOR IS CHANGED EACH QUARTER.

Good during months named in lower left hand corner and when properly signed, and STAMPED with the number of the Local.

### UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' Union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

### CUSTOM TAILORS' LABEL.

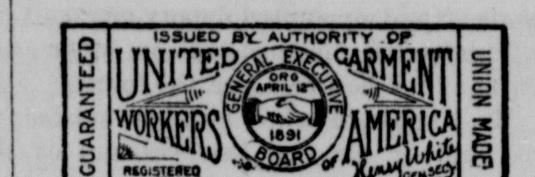

The Journeyman Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

### UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union-made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

### UNION MADE CLOTHES.

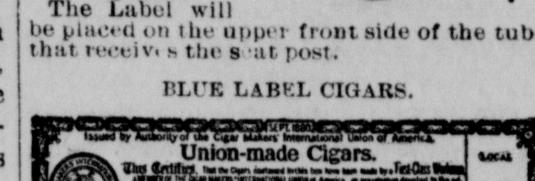

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

### BICYCLE-LABEL.

"Do unto others as you would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold.

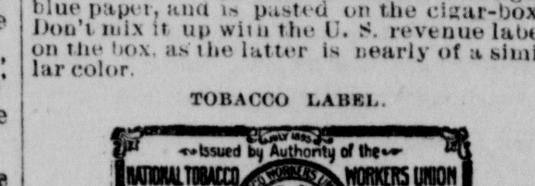

The Label will be placed on the upper front side of the tube that receives the sash post.

### BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

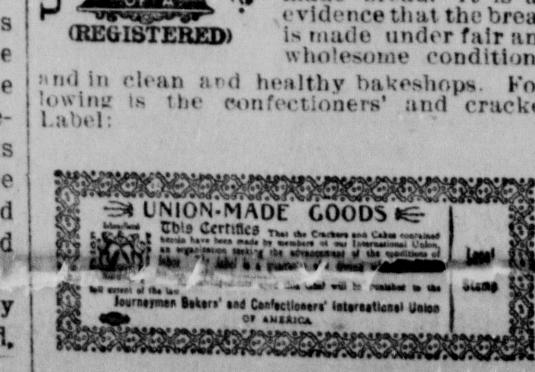

### TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

### UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' Union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeshops. Following is the confectioners' and cracker Label:

#### UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

#### CUSTOM TAILORS' LABEL.

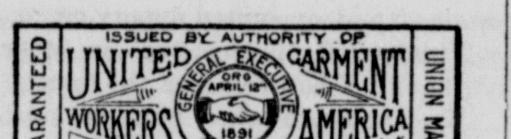

The Journeyman Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

#### UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union-made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

#### UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

#### BICYCLE-LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold.

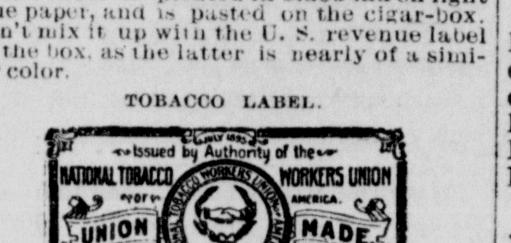

The Label will be placed on the upper front side of the tube that receives the seat post.

#### BLUE LABEL CIGARS.

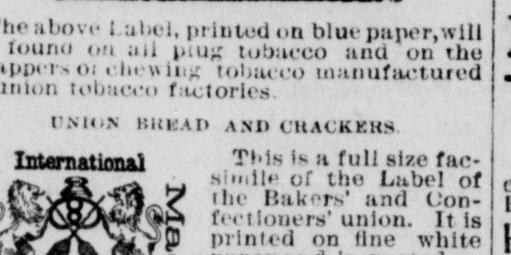

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

#### TOBACCO LABEL.

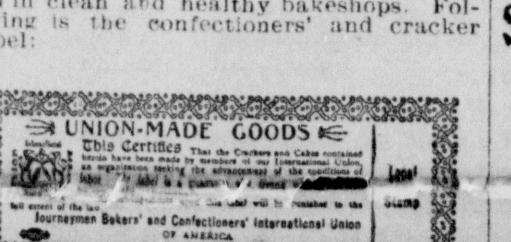

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

#### UNION BREAD AND CRACKERS.

and in clean and healthy bakeshops. Following is the confectioners' and cracker Label:

This is a full size facsimile of the Label of the Bakers' and Confectioners' union.

It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions,

## REMEMBERED THE WAR

How the Boys Marched Away  
Many Years Ago.

## THEY DID NOT FORGET TO PRAY

They Had Trials and Tribulations, and  
Those Who Survive Are Now Talking  
About Them—An Organization of Young  
Men Who Were Not Old Enough to Go.

These stirring times have started reminiscences of the other days with the soldiers of '61. Many of these are most interesting.

On the 25th day of April 1861, at 3 o'clock in the afternoon, the boys of Company K, Third Ohio, with Captain Cope in command, left Wellsville to report at Columbus. They arrived there at one o'clock that night. The state house was full of troops from all parts of the state. Captain McCook's First Volunteers were there among the rest. When "our boys" arrived they were lodged in the adjutant general's office for the balance of the night. As the door closed the command came—"Halt—Close up!—Front!—Order arms—Let us pray!—This last reverently—which command the captain proceeded to execute himself.

This command received the call from Adjutant General H. B. Carrington, afterward colonel [of the Eighteenth]. Mr. Rukenbrod, made a speech from the state house steps which seemed to effectively persuade the boys that going to war really was serious business.

There were some Wellsville people who could not go to war. O. R. Arnold, J. C. Catlett, Homer Wells, George Imrie, T. R. Andrews, Charles Murdock and James Stewart were a party of Wellsville boys who were all friends. Stewart was the only one old enough to go to war, and he went, the party first having their picture taken. Several years later, while Stewart was home on furlough, the party gathered at one place to hear his experiences. As usual they were hungry, and as restaurants were not then as numerous as they are today, they were compelled to skirmish for what they got. It was a splendid meal, and afterward they were known as the Buzzards.

It was agreed that a meeting should be held every 10 years in Wellsville, no matter where they might be, and at each meeting a banquet would be served and their pictures taken. Faithfully have they kept the agreement. About six years ago the circle was broken in the death of Mr. Stewart, and the remaining six acted as pallbearers at his funeral. "One Vacant Chair" was the inscription on the beautiful floral emblem they sent.

The last reunion of the group was in 1894 when the party spent a splendid day. All but Charles Murdock reside in this city, and he is a resident of Wellsville.

## Parish Society.

The Parish society of the Episcopal church held a meeting at the residence of Oscar Jenkins, Main street, last evening.

Miss Mary Garen sang a solo. Miss Belle Lyth recited "The Message" with a musical accompaniment by Miss Rena Matthews. Miss Edith Sweeney and Mr. Will Morris sang a duet. Harry Jones gave a patriotic recitation and Mr. Morris sang a solo.

The next meeting will be held at Mr. George Jones' in Commerce street.

## Two Societies.

The ladies of the West End mission chapel are busily employed quilting this week.

The Ladies' Aid Society of the Second Presbyterian church have purchased a very handsome oak and green carpet for their church which will be put upon the floor next week.

## WARREN IS OFFICER.

The Ex-Marshal Was Given a Job by the Board.

The new board of health held its first meeting last night, with all members present. The following officers were elected:

President, G. P. Ashley; secretary, H. H. McCreary; health officer, Joseph Warren.

The monthly report was read, and showed 14 deaths; births, 23, 15 being males. No colored children were born.

During the month four permits were issued to send bodies out of town, and four were received. The business of the year was passed over and the board adjourned.

## TWO MEN ARRESTED.

An Old Man and a Keg of Beer Figured Prominently.

Last night about 8 o'clock Officer Davis, assisted by George Pearce, arrested Robert Downard and Oliver Bentley, better known as Ollie Downard.

A charge was preferred by one Pinkerton. They were found near the depot. There was a keg of beer that figured largely in the fight, and an old man, whose name was unknown, was badly used up about the face. The men are well known about town, both being old offenders, and having served time at the workhouse. The time for hearing has not yet been set.

## A Missionary Meeting.

A meeting of the Methodist missionary society was held at the home of Mrs. William Wooster. Mrs. McCann, president, read the Scriptures, and Mrs. S. M. Snediker offered prayer.

During the business meeting that followed it was decided to hold a public meeting in the church May 15. Miss Fannie Lawson and Mrs. J. C. Catlett offered a duett: "The story of a dime" was read by Mrs. George Murdock. Miss Mame Reager and Miss Lon Henderson. Mrs. Menongh Jr. read a most interesting article of statistics.

A lunch of a variety of cake, coffee and pumpkin pie was served. A goodly number were in attendance, and a most enjoyable evening was spent.

## Organizing the Crescents.

A meeting was held in the Foraker club room last evening to re-organize the Crescents. There was not a full turnout. They adjourned to meet on Thursday evening, when a full turnout is expected.

Thomas Dolan, the former second baseman who had the second finger of his right hand badly mashed while braking on the railroad two weeks ago, hopes to have it in shape for playing by the time for action.

## LOCAL BREVITIES.

The library directors will hold their regular meeting this evening.

Miss Mame Driscoll is ill at her home in Ridgeway avenue with an attack of fever.

C. E. Macrum went to Pittsburg this morning. He will remain several weeks.

John B. Hoefgen returned to the city this morning, after spending several days in New York.

Reverend Hastings, of Toronto, spent last night in the city with friends. He returned home this morning.

This morning 24 baskets of ware were sent to Allegheny on the first train. This is the first shipment made this week.

A company of 12 people, all women except two, arrived in the city yesterday. They are advertising an eastern concern.

All the stalls at the fire station have been thoroughly cleaned. The cleaning is very noticeable, and makes an improvement to the place.

Miss H. M. Brookes, of the telephone office, is off duty on account of illness. Her place is being filled by Harry Yates, of the Wellsville office.

An unloaded barge that has been on the Broadway wharf since the last rise, was floated this morning. The barge was owned by Robt. Moore.

The street force are today cleaning the gutters in the principal streets, and also under the gratings, something that has been needed for a long time.

Clyde Allison this morning left for Hudson where he will have charge of the telegraph office at that place. He will remain there several weeks.

William Moore, janitor of the First National Bank building, who has been ill for some weeks, is now able to be out. He was suffering with a mild attack of the fever.

The case of Blanche Andrews against Francis Saulisbury will be heard before Squire Manley tomorrow morning at 10 o'clock. The charge is a serious one, and it will be fought bitterly.

Frank Hale left today for League Island navy yard, Philadelphia, where he will enlist on board one of the United States battle ships as a machinist. He has been employed at a local machine shop for several years.

Western Union linemen this morning completed the stringing of a private wire from Steubenville to this place. It will be brought to the central part of the city where a broker's office will be opened in the near future.

White Rose lodge, Order of St. George, at their last meeting initiated one candidate and will initiate two candidates at their next meeting. The order will attend services at St. Stephen's church Sunday morning.

The funeral of M. Meade took place this morning from St. Aloysius church, and the remains were sent to Kittanning for interment. Deceased was a member of the Musical union, and the band escorted the remains to the train, playing the funeral dirge.

W. C. Brown, representing the freight department of the Chicago, Milwaukee and St. Paul railroad and an agent of the Union Pacific road, were in the city yesterday soliciting business. While here they spent some time with Freight Agent T. J. Thomas.

The 40 hours' devotion now being observed at St. Aloysius church is being well attended. Father Meyers, of Pittsburgh, spoke to a large congregation last night, and Palmer Alling, of Wellsville, will speak tonight. Three masses were observed today, one at 5:15, 7 and 8:30 o'clock.

ON BOARD THE FLAGSHIP NEW YORK, OFF HAVANA, April 27.—The blockade continues. Up to this writing there have been no casualties in the United States blockading squadron.

KEY WEST, April 27.—The torpedo-boat Porter has arrived from off the Cuban coast and reports that the position of the blockade continues unchanged. There has been no firing on either side.

The United States cruiser Cincinnati captured Lieutenant Pedro Fernandez of the Spanish army, who was returning to his family on a small sloop. Lieutenant Fernandez is detained on the flagship.

KEY WEST, April 27.—The United States gunboat Newport, Captain B. F. Tilley, has brought in the Spanish sloop Paquete and the Spanish schooner Pierreno, Cuban coasting vessels, which she captured off Havana.

The lighthouse tender Mangrove, the baby of the navy, puffed proudly into Key West harbor with the richest prize of the war thus far, a vessel four times her size, in her wake. The captive was the Panama, Captain Quevedo, a big trans-Atlantic liner and an auxiliary cruiser of the Spanish navy, which has been plying of late between New York and Havana. She had 29 passengers, including three women, one Frenchman and one Mexican, and a crew of 72.

As the Panama carried two 12-pounders she could easily have annihilated the little Mangrove, and, as the latter came into the harbor with her prize, she was saluted with rousing cheers from every craft. The Mangrove, under Lieutenant Commander William H. Everett, who ran down from the hydrographic office two weeks ago to take her, was cruising along the Cuban coast, about 20 north of Havana, when she sighted the Panama. The only other ship of the fleet in sight was the battleship Indiana, three miles to the rear.

Lieutenant Commander Everett scented a prize and scuttled toward the stranger. When the latter came within range a shot from the Mangrove's 12-pounder was sent across her bows, but the Spaniard ignored the challenge and went on. Another shot followed without result, but the Mangrove was drawing nearer. When a third shot was fired, she was within 100 yards of the Panama, and Lieutenant Commander Everett shouted to the deck officer that if she did not surrender he would sink her.

The Mangrove's officers admit that they expected the enemy's 14-pounder to open on them in response to the threat, but the Spaniard promptly came to. Ensuing Dayton boarded the prize.

The battleship Indiana had seen the capture and drew up to the Mangrove, giving her a lusty cheer. Lieutenant Commander Everett reported to Captain Taylor of the battleship and the latter put a prize crew on board, consisting of Cadet Falcon and 15 marines. They then proceeded to the flagship New York, where a formal report was made, and Rear Admiral Sampson ordered Lieutenant Commander Everett to convey the prize to Key West.

The Panama is of about 2,800 tons burden. Her passengers were mainly Spanish refugees, fleeing from New York to Havana. Captain Quevedo was griefstricken and greatly humiliated because of the capture. The passengers declare they knew nothing of the blockade, and that when they saw the searchlight of the Mangrove they thought it was the light of a Spanish man-of-war. The first shot changed their joy to apprehension, the second and third created a panic. The women ran screaming for shelter and the captain locked himself sullenly in his cabin.

The Panama carries a valuable cargo of general merchandise, including a large quantity of corn. Much of it was meant to provision the Spaniards in Cuba and the cargo, with the ship itself, undoubtedly makes the richest prize thus far taken.

## ARMY REORGANIZATION BILL SIGNED.

WASHINGTON, April 27.—During the two hours' session of the senate the conference report on the army reorganization bill was agreed to and the measure engrossed and signed. The remainder of the session was devoted to the passage of 74 private pension bills and numerous measures from the general calendar.

## SPANIARDS PREDICTING A LONG WAR.

Note Sent to Powers Intimating Our Object Is Annexation—Refers to General Lee.

MADRID, April 27.—The general tone of the evening papers bears the opinion that the war will be a long one. As Senor Silvala, leader of the dissident conservatives, has said, Spain has already lost the material advantages resulting from the possession of Cuba, but will fight to the last on the question of maintaining the flag.

The Spanish government has sent a circular to the powers, supplementing its circular of April 18 and expressing regret at the "hard necessity of being compelled to appeal to force in order to repel the scandalous aggression of the United States and defend the national dignity and historical integrity of the fatherland."

After a reference to the "execrable conduct" of General Fitzhugh Lee the note reproduces the text of the resolutions of congress, underlining the last words "as intended to deceive the Cubans."

It is then predicted that the island of Cuba will not be declared pacified "until it is ready for annexation."

## REALLY A DIPLOMATIC TRICK.

England Enforced Neutrality Against Us to Cause Pressure on Spain.

LONDON, April 27.—The dismissal of the United States squadron from Hongkong and the apparent severity of the British government in seizing the United States torpedo boat Somers at Falmouth, owing to the neutrality proclamation, the Associated Press hears, were incidents prearranged by American and British diplomacy, their real object being to force the Spanish government to order the Spanish fleet to leave Cape Verde islands, belonging to Portugal, and to prevent other nations at a critical moment from offering similar hospitality.

KINGSTON, Ireland, April 27.—The former mail steamer Ireland, which is supposed to have been purchased by the United States, was in readiness to leave when prevented, owing to neutrality measures of the government.

provides that it shall be a misdemeanor for an adult and able-bodied child to abandon an infirm parent. The penalty is severe—the severest allowed being a year in a workhouse.

Senator Riley is the author of the one bill of the session which will live in history. It is the one that became a law and placed in the hands of the governor \$1,000,000 with which to put the state militia on a war footing for the fight with Spain.

A law by Senator Carpenter establishes a bacteriological laboratory for the state board of health.

The Riley law requires railway companies to stop the crevices in their switch frogs so that the feet of employees can not slip in them and get caught.

The new Ashford law imposes a fine of \$1,000 on foreign corporations that attempt to do business in Ohio without complying with Ohio laws.

The Leeper law entirely revises the law governing the issuing of marriage licenses.

Mr. Hazlett is the author of a bill appropriating \$400,000 for a new state building.

By another new law service may be secured upon a corporation in any county in which the chief officer is found.

By a new law of Senator Williams creditors can take from a man's insurance only what he paid in as premiums after the claims accrued.

One of the most important laws of the session is the McKinnon law, which forbids attorneys from drawing fees from the state unless they have been retained by the attorney general, the governor and auditor of state.

One of the most important laws of the session is that which makes it possible to drive trusts out of the state.

By a new law accident and casualty insurance associations may also insure real estate titles.

## TO THE ADVERTISERS.

The Evening News Review has the largest bona fide PAID daily circulation of any paper published in East Liverpool, and the largest circulation in Wellsville of any daily paper published in East Liverpool. Keen witted and wide awake business men and advertisers will make note of these facts.

HARRY PALMER,  
Owner and Manager.

## TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomparably superior to those of would-be competitors. Test the matter. We will prove the truth of our assertion.

Printed envelopes, either 6 or 6½ in size, at the NEWS REVIEW, from 95 cents per thousand and up, according to quality. We defy competition in workmanship or material.

## LOCAL BREVITIES.

The library directors will hold their regular meeting this evening.

Miss Mame Driscoll is ill at her home in Ridgeway avenue with an attack of fever.

C. E. Macrum went to Pittsburg this morning. He will remain several weeks.

John B. Hoefgen returned to the city this morning, after spending several days in New York.

Reverend Hastings, of Toronto, spent last night in the city with friends. He returned home this morning.

This morning 24 baskets of ware were sent to Allegheny on the first train. This is the first shipment made this week.

A company of 12 people, all women except two, arrived in the city yesterday. They are advertising an eastern concern.

All the stalls at the fire station have been thoroughly cleaned. The cleaning is very noticeable, and makes an improvement to the place.

Miss H. M. Brookes, of the telephone office, is off duty on account of illness. Her place is being filled by Harry Yates, of the Wellsville office.

An unloaded barge that has been on the Broadway wharf since the last rise, was floated this morning. The barge was owned by Robt. Moore.

The street force are today cleaning the gutters in the principal streets, and also under the gratings, something that has been needed for a long time.

Clyde Allison this morning left for Hudson where he will have charge of the telegraph office at that place. He will remain there several weeks.

William Moore, janitor of the First National Bank building, who has been ill for some weeks, is now able to be out. He was suffering with a mild attack of the fever.

The case of Blanche Andrews against Francis Saulsbury will be heard before Squire Manley tomorrow morning at 10 o'clock. The charge is a serious one, and it will be fought bitterly.

Frank Hale left today for League Island navy yard, Philadelphia, where he will enlist on board one of the United States battle ships as a machinist. He has been employed at a local machine shop for several years.

Western Union linemen this morning completed the stringing of a private wire from Steubenville to this place. It will be brought to the central part of the city where a broker's office will be opened in the near future.

White Rose lodge, Order of St. George, at their last meeting initiated one candidate and will initiate two candidates at their next meeting. The order will attend services at St. Stephen's church Sunday morning.

The funeral of M. Meade took place this morning from St. Aloysius church, and the remains were sent to Kittanning for interment. Deceased was a member of the Musical union, and the band escorted the remains to the train, playing the funeral dirge.

W. C. Brown, representing the freight department of the Chicago, Milwaukee and St. Paul railroad and an agent of the Union Pacific road, were in the city yesterday soliciting business. While here they spent some time with Freight Agent T. J. Thomas.

The 40 hours' devotion now being observed at St. Aloysius church is being well attended. Father Meyers, of Pittsburg, spoke to a large congregation last night, and Father Mulligan, of Wellsville, will speak tonight. Three masses were observed today, one at 5:15, 7 and 8:30 o'clock.

## EXPLOIT OF THE MANGROVE.

She Took the Big Spanish Auxiliary  
Cruiser Panama.

## OTHER PRIZES TOWED INTO PORT.

The Gunboat Nashville Captured Two  
Cuban Coasting Vessels Off Havana.

The Captain of the Big Panama Much  
Chagrined at Being Taken by the Little  
Mangrove, the Baby of the United  
States Navy—Wild Scene on Board  
When Shots Were Fired—Battleship  
Indiana Came Up After the Capture  
and Will Share the Prize Money—No  
Change in the Blockade at the Time  
the Dispatch Was Sent—Neither Any  
Firing Between the Fleet and the  
Spanish Batteries.

ON BOARD THE FLAGSHIP NEW YORK,  
OFF HAVANA, April 27.—The blockade  
continues. Up to this writing there  
have been no casualties in the United  
States blockading squadron.

KEY WEST, April 27.—The torpedo-boat  
Porter has arrived from off the  
Cuban coast and reports that the position  
of the blockade continues unchanged. There has been no firing on  
either side.

The United States cruiser Cincinnati  
captured Lieutenant Pedro Fernandez  
of the Spanish army, who was returning  
to his family on a small sloop. Lieutenant  
Fernandez is detained on the  
flagship.

KEY WEST, April 27.—The United  
States gunboat Newport, Captain B. F.  
Tilley, has brought in the Spanish sloop  
Paquete and the Spanish schooner Pier-  
reneo, Cuban coasting vessels, which  
she captured off Havana.

The lighthouse tender Mangrove, the  
baby of the navy, puffed proudly into  
Key West harbor with the richest prize  
of the war thus far, a vessel four times  
her size, in her wake. The captive was  
the Panama, Captain Quevedo, a big  
trans-Atlantic liner and an auxiliary  
cruiser of the Spanish navy, which has  
been plying late between New York  
and Havana. She had 29 passengers,  
including three women, one Frenchman  
and one Mexican, and a crew of 72.

As the Panama carried two 12-pounders  
she could easily have annihilated  
the little Mangrove, and, as the latter  
came into the harbor with her prize,  
she was saluted with rousing cheers  
from every craft. The Mangrove, under  
Lieutenant Commander William H.  
Everett, who ran down from the hydro-  
graphic office two weeks ago to take her,  
was cruising along the Cuban coast,  
about 20 north of Havana, when she  
sighted the Panama. The only other  
ship of the fleet in sight was the battle-  
ship Indiana, three miles to the rear.

Lieutenant Commander Everett  
scented a prize and scuttled toward the  
stranger. When the latter came within  
range a shot from the Mangrove's 12-  
pounder was sent across her bows, but  
the Spaniard ignored the challenge and  
went on. Another shot followed without  
result, but the Mangrove was drawing  
nearer. When a third shot was  
fired, she was within 100 yards of the  
Panama, and Lieutenant Commander  
Everett shouted to the deck officer that  
if she did not surrender he would sink  
her.

The Mangrove's officers admit that  
they expected the enemy's 14-pounder to  
open on them in response to the threat,  
but the Spaniard promptly came to. En-  
sing Dayton boarded the prize.

The battleship Indiana had seen the  
capture and drew up to the Mangrove,  
giving her a lusty cheer. Lieutenant  
Commander Everett reported to Captain  
Taylor of the battleship and the latter  
put a prize crew on board, consisting of  
Cadet Falcon and 15 marines. They  
then proceeded to the flagship New  
York, where a formal report was made,  
and Rear Admiral Sampson ordered  
Lieutenant Commander Everett to con-  
voy the prize to Key West.

The Panama is of about 2,800 tons  
burden. Her passengers were mainly  
Spanish refugees, fleeing from New  
York to Havana. Captain Qnevedo was  
griefstricken and greatly humiliated  
because of the capture. The passengers  
declare they knew nothing of the block-  
ade, and that when they saw the search-  
light of the Mangrove they thought it  
was the light of a Spanish man-of-war.  
The first shot changed their joy to ap-  
prehension, the second and third created  
a panic. The women ran screaming  
for shelter and the captain locked  
himself sullenly in his cabin.

The Panama carries a valuable cargo  
of general merchandise, including a  
large quantity of corn. Much of it was  
meant to provision the Spaniards in  
Cuba and the cargo, with the ship itself,  
undoubtedly makes the richest prize  
thus far taken. Under the regulations,  
however, the battleship may not share  
in the prize money, as she was in  
sight when the capture was made. This  
means five steamers thus far captured,  
in addition to a number of schooners

and small craft, the entire fleet has  
been on the lookout for the Panama for  
several days. That the Mangrove's  
prowess secured her serves as a striking  
commentary upon the spirit of the  
American navy.
